Subject: Microsoft Settlement

Dear Sir or Madam,

I am concerned about the lengthy court battles of the government vs. Microsoft. I believe it is in the best interest of the economy and the future of technology that this be settled immediately.

Our economy is still very fragile and we need a boost. An immediate settlement of the Microsoft case would be that boost. Microsoft, as a company, has done more for technology in the last 15 years than any other company. Let's put the company back to work, take this distraction away from them, and see what they can do for us over the next 15 years. Thank you for your attention.
